

# Residual Waste Restrictions

Ceredigion is one of the UK's top recyclers – but we can still do better. Nearly half of kerbside “black bag” waste could be recycled, mostly food waste.

From **23 June 2025** restrictions will apply to the amount of residual waste (black bags) that householders can present for collection in Ceredigion to boost recycling, reduce costs, and help the environment:

- **Properties can put out a maximum of three "black bags" every three weeks at the kerbside**
- **Bags must be standard 60L bags and weigh no more than 20kg**
- **Unsorted waste will also be banned at Household Waste Sites**

Please continue to make full use of the Council's recycling services, including the food waste collection service.

For more information, including frequently asked questions, please visit our website or contact us:
